### REASONS FOR ALLOWANCE

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

As per independent claims 1 and 12, the prior art does not teach the cooling system combination as claimed, and in particular wherein the forcible cooling control means refers to the power temperature detection signal and the power converter detection signal and when the motor temperature detection signal rises up to the motor forcible cooling control temperature or the temperature rise amount of the power converter temperature detection signal from the power converter operation start temperature reaches the rise amount of the forcible cooling control temperature, starts control of the operation of the refrigerant feeding means.

As per independent claim 11, the prior art does not teach the cooling system combination as claimed, and in particular wherein the forcible cooling means has fresh air temperature detection means, refers to the motor temperature control signal, power converter temperature detection signal, and fresh air temperature detection signal, and thereby control the refrigerant feeding means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
